RetainWise

Employee attrition root-cause intelligence · Demo company: Infosys-style IT services firm · 500 synthetic employees, ₹ lakh

Headcount	Attrition rate	Cost of attrition	Model AUC
500	32.4%	₹1,768 L	0.79

Active employees at risk
66

1 · What drives attrition (learned by the model)

Bars show the model's learned effect of each factor. Red raises attrition risk, green lowers it. Each bar is a one-standard-deviation change.

2 · Where the problem is concentrated

Department	Headcount	Attrition	Avg overtime	Avg engagement	Pay vs market	Main driver
Support	139	44.6%	10.9 h	5.3	100%	Weekly overtime hours
Engineering	168	32.7%	8.9 h	6.3	101%	Weekly overtime hours
Sales	109	32.1%	8.3 h	6.2	99%	Pay vs market (compa-ratio)
HR	42	14.3%	4.2 h	6.3	99%	Training hours
Finance	42	9.5%	5.4 h	6.4	100%	Years since promotion

3 · Retention interventions ranked by return

Employees	Leavers	Savings	Cost	Net

Intervention	Employees targeted	Leavers avoided	Savings (₹L)	Cost (₹L)	Net (₹L)
Manager and engagement program Manager coaching, stay interviews and recognition (+1.5 engagement)	136	14.4	159.4	20.4	**139.0**
Upskilling and learning budget Guarantee at least 30 training hours per year	205	9.3	110.6	20.5	**90.1**
Overtime cap and workload rebalancing Cap overtime at 8 hours per week via hiring and task redistribution	166	13.9	151.5	66.4	**85.1**
Market pay correction Raise anyone below 95% of market to 95%	81	6.2	63.9	47.3	**16.6**
Career path and promotion review Review anyone waiting more than 3 years for promotion	90	3.6	42.0	45.0	**-3.0**

Each intervention is simulated on the current employees: the model re-scores them after the change, and savings = leavers avoided × replacement cost (1.5× annual salary).

4 · Highest-priority at-risk employees

Employee	Department	Risk	Salary (₹L)	Top drivers	Suggested action
E-2216	Engineering	65%	12.1	Engagement score, Absenteeism days	Stay interview + manager coaching
E-2158	Engineering	60%	11.1	Pay vs market (compa-ratio), Weekly overtime hours	Pay correction
E-2482	Engineering	59%	10.9	Absenteeism days, Pay vs market (compa-ratio)	Wellbeing check-in
E-2091	Engineering	58%	10.5	Pay vs market (compa-ratio), Training hours	Pay correction
E-2271	Engineering	64%	9.4	Pay vs market (compa-ratio), Absenteeism days	Pay correction
E-2037	Sales	79%	7.3	Weekly overtime hours, Pay vs market (compa-ratio)	Workload rebalancing
E-2448	Engineering	40%	14.1	Engagement score, Weekly overtime hours	Stay interview + manager coaching
E-2248	Engineering	43%	12.7	Weekly overtime hours, Engagement score	Workload rebalancing
E-2440	Engineering	62%	8.7	Pay vs market (compa-ratio), Engagement score	Pay correction

				Engagement score
